Programme

Genomics: Transforming Healthcare

Genomic medicine is bringing the benefits of Personalised Medicine to patients in the NHS. This is a **free educational event for all healthcare professionals** who want to explore the impact of genomics on patient care, diagnosis and treatment.

Come and hear about the exciting work and developments that are happening in our region:

- Find out how genomics is already making a difference to patients' lives.
- Hear how genomics will change how you diagnose and treat patients .
- Learn more about Training & Educational opportunities in genomics for you and your team.

Topics will include:

- Genomics England, 100,000 Genomes Project
www.genomicsengland.co.uk
- Managing patient expectations
- Communicating complex information
- Economic benefits of genomic medicine
- Knowledge sharing sessions, including technological, scientific and pharmaceutical developments and patient benefits in cancer and rare disease.
